

Executive Director
STATEMENT of SUPPORT

Century Villages of Cabrillo is a collaborative of organizations united in our mission to break the cycle of homelessness in our community.

As vested members of this community-based partnership, we are committed to working together to engender the following ideals within all of our clients, families, children, employees, residents, and stakeholders:

- Foster acceptance of the human condition, including needs, hopes and aspirations
- Affirm the ability of residents to transcend obstacles, overcome barriers and flourish as human beings
- Promote self-respect
- Uphold dignity
- Become a contributing member of the community
- Support empowerment
- Advance reintegration into society
- Promote personal achievement
- Encourage education for the individual and family

Together, we stand united in our support for the dignified, healing and sober living environment that has been consciously crafted and carefully maintained at CVC. We jointly affirm that this supportive environment is integral to our ability to effectively serve our populations and achieve our vision of breaking the cycle of homelessness.

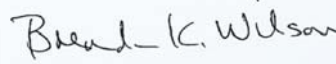

Our vision to break the cycle of homelessness is supported by a complementary continuum of care and coupled with on-site housing that has been intentionally created by CVC. We hereby commit to collaborating and coordinating to maximize personal impact and achieve our mission.
